Great news for Legends of Dawn players - a new patch!

So before everyone asks, yeah we do actually listen to your suggestions :-)

What's in the patch?

- added new tooltips with more information about items
- improved FOV and camera zoom so that when zooming towards player, camera moves slightly forward thus giving larger view area
- various small optimizations and fixes

The patch will be online today (March 3rd) at about 20h GMT.

But, there are even more good news. The next patch will include French and Italian localization, and is coming in a few days.

Please let us know how did you like the patch
