Almost all VOs have been received and checked and are ready to be integrated in game. Here is a small sample of the work that the great people at Audiogodz did. We are very happy with results and we hope that in the future we'll be able to afford to add animated characters and cut scenes to complement such good voice acting.

Lani Minella has done great job by picking top voice actors and by directing them to such a level of performance. Although our budget was small compared to what they were accustomed to when recording sessions for RPGs from the big guys, she managed to get a team of 16 people on board for Legends of Dawn, most of whom had to give numerous voices to over 60 NPCs. We'd like to thank each of them, so thank you Lani, Claudia, Erin, Lauren, Adam, Barry, Bill, Dave, David, Eric, Gabriel, Marc, Sam, Stephanos, Terry and Tim.

They have also provided us with new emotes so all the old "uhhs", "ahhs", "ouches" etc. we'll be replaced with fresh and much better expressions.

This is it for now! We'll come back with the update on how the Steam integration is going on and even before that we will send backer survey where we'll ask you about the details such as your names for the credit section, shipping addresses etc.

Thanks to all who joined our forum and we hope many more we'll join. Thanks for actively showing your interest in Legends of Dawn and for spreading the buzz! Special thanks to all of you who are showing patience and understanding regarding release delays.
